Fulgence, Katherine

Abstract

2015 The case narrates an experience of an entrepreneur, Mr. Enock Walter who wanted to establish a secondary school immediately after bachelor's graduation. He was saddened by many teachers who believed they were in the wrong profession where they had to endure miserable lives. Besides lacking business knowledge and know-how on how to realize his dream, Mr. Walter struggled to acquire them and established the school seven years later. Going through his experience, students are provided with dilemmas requiring them to develop, analyze, and prioritize entrepreneur's challenges during start-up. Students can also perform financial ratio analysis from the financial statements provided.
