Towards Sustainable Ecotourism through Stakeholder Collaborations in Tanzania

Authors

Liliane Pasape, Wineaster Anderson, George Lindi

Abstract

This paper aims to assess the stakeholders' strategies towards sustainable ecotourism, with specific focus on networks and public private partnership strategies. A qualitative method through exploratory research design was applied to gather in-depth information about the existing networks and their roles towards promoting sustainable ecotourism in Tanzania. Thereafter, 23 common strategies in promoting sustainable ecotourism through collaborations were established from literature review, followed by a **...**
